

Frontiers of Plant Research

6 - 9 May | 2009

Cadiz | Spain

2nd EMBO Conference Series on Plant Molecular Biology

Plant molecular biology has gained a prominent relevance for the understanding of basic biological processes as well for the basic sector of applied agricultural research, for environmental protection, for the pharmaceutical industry, among others.

Topics

- Epigenetics and RNA biology ◀
- Cell division, differentiation and organogenesis ◀
- Hormone perception and signaling ◀
- Abiotic stress and defense mechanisms ◀
- Membrane biology ◀

Speakers

- Phil Benfey** (USA)
- Michael Bevan** (United Kingdom)
- Thomas Boller** (Switzerland)
- Lucia Colombo** (Italy)
- Mark Estelle** (USA)
- Pascal Genschik** (France)
- Ueli Grossniklaus** (Switzerland)
- Wilhelm Gruissem** (Switzerland)
- Crisanto Gutierrez** (Spain)
- Reiner Hedrich** (Germany)
- Dirk Inzé** (Belgium)
- Jonathan Jones** (United Kingdom)
- Csaba Koncz** (Germany)
- Thomas Laux** (Germany)
- Ottoline Leyser** (United Kingdom)
- Rob Martienssen** (USA)
- Paloma Más** (Spain)
- Marjori Matzke** (Austria)
- Michael Palmgren** (Denmark)
- Javier Paz-Ares** (Spain)
- Roberto Solano** (Spain)
- Ben Scheres** (The Netherlands)
- Paul Schulze-Lefert** (Germany)
- Hervé Vaucheret** (France)
- Olivier Voinnet** (France)
- Jian-Kang Zhu** (USA)

Organisers

Crisanto Gutierrez

Centro de Biología Molecular
"Severo Ochoa"
(Madrid)

Montserrat Pagés

Departamento de Genética
Molecular de Plantas
(Barcelona)

Javier Paz-Ares

Centro Nacional de Biotecnología
(Madrid)

Pere Puigdomenech

Departamento de Genética
Molecular de Plantas
(Barcelona)

Ramón Serrano

Instituto de Biología Molecular y
Celular de Plantas
(Valencia)
