**TOPICS**

- Quantitative proteomics in cancer systems biology I – cells and tissues
- Developmental model systems and cancer stem cells
- Quantitative proteomics in cancer systems biology II – biofluids
- Protein complexes and protein-protein interaction networks
- Data integration I – cellular signaling networks
- Data integration II – global views of cancer processes
- Connecting systems approaches to clinical use

The programme for this event was reviewed and approved by the EMBO Courses Committee.

# Cancer Proteomics 2011: Systems Biology, Developmental Models and Data Integration

20th - 23rd June, 2011

The Burlington Hotel, Dublin, Ireland

**Educational Session:**

Integrated analysis of proteomics data  
for cancer systems biology (*half day*)

**SPEAKERS**

**Barillot, Emmanuel** *FR*

**Beretta, Laura** *USA*

**Børresen-Dale, Anne-Lise** *NO*

**Brunak, Søren** *DK*

**Carr, Steve** *USA*

**Culhane, Aedin** *USA*

**Eggert, Ulrike** *USA*

**Emili, Andrew** *CA*

**Gillette, Michael** *USA*

**Hanash, Sam** *USA*

**Ideker, Trey** *USA*
