

**EMBO
Conference
Series**
3rd in a series

Molecular and cellular basis of regeneration & tissue repair

26 - 30 September | 2010 | Sesimbra | Portugal

ORGANISERS

Enrique Amaya
University of Manchester, UK

Daniel Bachiller
CSIC, Mallorca, ES

Karen Echeverri
Center for Regenerative Therapies
Dresden, DE

Antonio Jacinto
Institute of Molecular Medicine
Lisbon, PT

CONTENT

A unique conference on tissue repair, focusing on the basic biology of regeneration in a wide variety of experimental model organisms.

FELLOWSHIPS

A limited number of fellowships will be available to PhD students, Post Doctoral researchers or new Principal Investigators, which will cover the conference fee, travel and accommodation.

REGISTRATION DEADLINE:

31st May 2010

The programme for this event was reviewed and approved by the EMBO Courses & Workshops Committee.

SPEAKERS

Kiyo Agata
Kyoto University, JP

Enrique Amaya
University of Manchester, UK

Daniel Bachiller
CSIC, ES

Karen Echeverri
Center for Regenerative Therapies, DE

Isabel Fariñas
University of Valencia, ES

Eileen Furlong
EMBL, DE

Brigitte Galliot
University of Geneva, CH

Magdalena Götz
Ludwig-Maximilians-Universität, DE

Anne Grapin- Botton
ISREC, CH

Harry Heimberg
Vrije Universiteit Brussel, BE

Anna Jazwinska
University of Fribourg, CH

Paul Martin
University of Bristol, UK

Randall Moon
University of Washington, USA

David Raible
University of Washington, USA

Michael Rudnicki
Ottawa Hospital Research Institute, CA

Alejandro Sánchez Alvarado
University of Utah, USA

Andras Simon
Karolinska Institute, SE

Maria Blasco
CNIO, ES

Jeremy Brockes
University College London, UK

Susan Bryant
University of California, Irvine, USA

Margaret Buckingham
Pasteur Institute, FR

Brigid Hogan
Duke University, USA

Thomas Holstein
University of Heidelberg, DE

James Hudspeth
The Rockefeller University, USA

Antonio Jacinto
Instituto de Medicina Molecular, PT

Didier Stainier
University of California, San Francisco, USA

Koji Tamura
Tohoku University, JP

Elly Tanaka
Center for Regenerative Therapies, DE

Fiona Watt
University of Cambridge, UK
