

Spetsai Summer School 2010

EMBO-FEBS

Lecture
Course

Host-Microbes Interactions

1 - 9 September 2010 | Island of Spetses | Greece

ORGANISERS

Pascale COSSART

Unité des Interactions Bactéries-
Cellules
INSERM Unité U604, INRA USC2020
Institut Pasteur
Paris, FR

Roberto KOLTER

Dept of Microbiology and
Molecular Genetics
Harvard Medical School
Boston, USA

CONTENT

The program includes lectures on a
variety of topics such as:

- major bacterial pathogens
- commensalism
- biofilms
- small RNAs and RNA mediated
regulation
- métagenomics
- insect vectors
- innate immunity

Tutorials on DNA sequencing
technologies, imaging and three
special EMBO lectures including one
Science and Society lecture and one
EMBO Young Investigator lecture are
new features of this course.

REGISTRATION

Deadline: 1st May, 2010

Registration Fee: Euro 500
(includes accommodation and
meals)

**For Senior or Corporate Researchers
the fee will be 1000 euros*

The programme for this event was
reviewed and approved by the EMBO
Courses & Workshops Committee
& FEBS ACC Committee.

LECTURERS

Bonnie BASSLER

Princeton University, USA

Roberto KOLTER

Harvard Medical School, USA

Carmen BUCHRIESER

Institut Pasteur, FR

Inigo LASA

Universidad Publica de Navarra, ES

Pascale COSSART

Institut Pasteur, FR

Bruno LEMAITRE

Ecole Polytechnique Fédérale de Lausanne, CH

Julian DAVIES

University of British Columbia, CA

Gunnar LINDAHL

Lund University, SE

Christoph DEHIO

University of Basel, CH

Javier PIZARRO-CERDA

Institut Pasteur, FR

Joel DORE

INRA, UEPSD, UR910, FR

Maria RESCIGNO

European Institute of Oncology, IT

Jean-Pierre GORVEL

Centre d'Immunologie de Marseille-Luminy, FR

Philippe J. SANSONETTI

Institut Pasteur, FR

David HOLDEN

Imperial College London, UK

Maxime SCHWARTZ

Institut Pasteur, FR

Gisou VAN DER GOOT

Ecole Polytechnique Fédérale de Lausanne, CH
