

COMPUTATIONAL BIOLOGY

from **Genomes**
to **Cells and Systems**

10 - 16 AUGUST | 2008

SINGAPORE

This 7-day practical course introduces advanced methods and applications in computational biology ranging from molecules to cellular systems.

The course is intended for PhD students and Postdocs.

Applicants are assumed to have a basic understanding of computational biology, and should be motivated to tackle novel biological questions using computational approaches.

Organisers & Scientific Community

Peer Bork (*main organiser*)
EMBL Heidelberg
Germany

Frank Eisenhaber (*local organiser*)
Bioinformatics Institute, A*STAR
Singapore

Mohan K. Balasubramanian (*local organiser*)
Temasek Life Sciences Laboratory
Singapore

Francesca Ciccarelli
European Institute for Oncology
Milan, Italy

Roland Krause
Max-Planck-Institute for Molecular Genetics
Germany

Jan Korbel
EMBL Heidelberg
Germany

Venue

Temasek LifeSciences Laboratory
National University of Singapore
Singapore

Deadline for applications: 1st April, 2008
